Important to U.S.A. Residents

United States residents returning from Canada may take back, once every 31 days, merchandise for personal or household use to the value of \$100, free of United States duty and tax, providing they have remained in Canada 48 hours. The exemption will be based on the fair retail value of the article acquired and goods must accompany the resident upon arrival in the United States. Members of a family household travelling together may combine their personal exemptions—thus a family of 5 could be entitled to a total exemption of \$500. Up to 100 cigars per person may be imported into the U.S. by U.S. residents (cigars must not contain Cuban tobacco), and also one quart of alcoholic beverages if the resident has attained the age of 21 years. If however the State laws of residence prohibit importation of any such goods United States Customs will not clear.

Visiting Canada for less than 48 hours

Residents of the United States visiting Canada for less than 48 hours may take back for personal or household use merchandise to the fair retail value of \$10 free of United States duty and tax. Any or all of the following may be included so long as the total value does not exceed \$10. Fifty cigarettes, 10 cigars (cigars must not contain Cuban tobacco), one half pound of manufactured tobacco, 4 ounces of alcoholic beverage, or 4 ounces of alcoholic perfume.

However, if 4 ounces of alcoholic perfume is purchased, no tobacco or alcoholic beverage may be included.

If any article brought back is subject to duty or tax, or if the total value of all articles exceeds \$10, no article may be exempted from duty or tax.

Members of a family household are not permitted to combine the value of their purchases under this exemption.

Persons crossing the International Boundary at one point and swinging back into the United States in order to travel to another part of Canada should inquire at United States Customs regarding special exemption requirements.
